**COLUMBIA, S.C.** – This morning, inmate Jeriod John Price was arrested in New York by agents from the Federal Bureau of Investigation and officers from the New York Police Department. The FBI and NYPD were acting on a tip that came into South Carolina law enforcement authorities.

Upon his return to South Carolina, Price will be taken to Kirkland Reception and Evaluation Center in Columbia, where he will remain until his permanent custody placement is determined. Any issues involving safety will be addressed during this process.

Price was released from prison in March, but the S.C. Supreme Court overturned the order reducing his sentence in April. Law enforcement has been searching for him since.

Price was sentenced in 2003 to 35 years in prison for murder.
